EXPERIENCE

Cohack — *Co-Founder*

JUNE 2020 - PRESENT

Non-profit focused on providing computer science knowledge to students through hands-on learning such as hackathons and workshops. Worked with a small team to organize and run a virtual hackathon (cohack.co/hackathon) with over 300 participants. Organization included marketing, reaching out to sponsors and mentors, as well as supervising workshops and games during the event.

Additionally, personally led workshops that taught basic HTML, CSS, and Python skills to a class of over 20 middle school students.
